

SEDAN GITICONTROL SERIES

GitiControl P80

The GitiControl P80 RunFlat is made for drivers who want both safety and comfort. Even with zero air pressure, it lets drivers keep driving safely. Under normal conditions, it delivers a smoother, more stable ride by reducing vibrations. With strong grip and excellent water evacuation, it also shortens braking distances on wet roads, giving drivers better control and confidence behind the wheel.

SMOOTH AND COMFORTABLE

PRECISE CONTROL

WET DRIVING STRENGTHS

TIRE FEATURES

COMFORT WHILE DRIVING

OPTIMISED ELASTICITY OF SUPPORT RING

Sufficiently elastic support ring results in faster convergence while pulsating. Increased comfort at normal tire pressure

PRECISE CONTROL

BETTER CONTROL

Strong double-layer artificial silk materials: Enhance the impact of force of carcass and better control

PROTECTION BAR

3.5 mm high "guardrail" protection bar: Blocks gravels to reduce sidewall damage

SHORT WET BRAKING DISTANCE

CONTROL PERFORMANCE

Strong double-layer artificial silk materials: Enhance the impact of force of carcass and better control
